

From Editor to RJES Readers

Dear RJES Readers,

Warm greetings to all our readers. I am delighted to connect with you once again in the RJES Journal, Volume 13, Number 1 (January-June 2026). You may notice some changes in this issue: we are transitioning to a rolling publication model, where articles will be published as soon as they are ready. This approach aims to ensure that our authors can disseminate their research findings more promptly.

The first set comprised of 6 articles, and you can look forward to more of them. Hopefully you will enjoy reading them.

Warm regards,

Malivan Praditteera
RJES Editor-in-Chief
